SUMMARY

WordPress Engineer & Web Developer with 3 years of hands-on experience building, managing, and maintaining client websites at scale. Skilled in WordPress development, website maintenance, quality assurance, security hardening, performance optimization, and client-facing support. Proven ability to handle 150+ production websites across multiple hosting environments while delivering reliable, high-quality results. Proficient at working independently with a strong focus on stability, attention to detail, and continuous improvement.

EXPERIENCE

WordPress Engineer - Elite Digital | Sept 2023 - Feb 2026 | Remote

- Managed maintenance and updates for 150+ production WordPress websites, ensuring stability, uptime, and reliability
- Reduced deployment risk through structured backup protocols, staging environment validation, and QA/regression testing
- Diagnosed and resolved plugin conflicts, theme issues, security vulnerabilities, and live site errors
- Troubleshoot hosting and performance issues across multiple hosting platforms (Kinsta, WP Engine, Cloudways, and Bluehost)
- Conducted security hardening and vulnerability remediation using Wordfence and industry best practices
- Migrated and structured content from design files and documents into WordPress templates
- Implemented responsive front-end fixes and layout improvements using Elementor and Cornerstone page builders
- Performed performance optimization tasks, including image compression, caching, and page speed improvements
- Communicated with clients to provide updates, gather feedback, and address website concerns
- Documented all tasks, issues, and resolutions in ClickUp to organize records and troubleshooting information

Web Developer Intern - Qadra Studio | May 2022 - Dec 2022 | Muntinlupa City, Philippines

- Built and enhanced web pages using HTML, CSS, JavaScript, and WordPress; translated Figma designs into responsive, functional pages
- Developed custom layouts, custom post types, and responsive designs using various WordPress tools across multiple client projects
- Assisted with plugin integration, debugging, QA testing, content management, and data updates for active client projects
- Collaborated with cross-functional teams on the development and delivery of client websites
